

# ❖ Europerio 6

June 4-6, 2009, Stockholm, Sweden

## Abstract submission online Final date December 15<sup>th</sup>

### Dear friends and colleagues,

The next Europerio will be held in Stockholm June 4-6, 2009. It is a great pleasure and an honor for me to invite you to join us there.

Europerio is the natural meeting arena between Dentists, Dental Hygienists and Specialists with an interest in Periodontology and Implant Dentistry. In planning Europerio 6, we have spared no efforts in bringing you the absolute latest science, the newest clinical applications and fantastic opportunities to meet with the industry focusing in these two central parts of modern dentistry.

Stockholm is a fantastic city all year around, but especially at the beginning of the summer when Europerio 6 is to be held. Take a walk in the old town or a boat trip in the archipelago. I will guarantee you will not regret coming.

**Please mark in your agenda:  
June 4-6, 2009 Europerio 6, Stockholm**

**We look forward seeing you and have reserved a place for you.**

**Prof. Dr. Stefan Renvert  
Europerio 6 Chairman**

### Highlights of the Scientific Program

From science to clinical practice: The worlds most renowned scientists and clinicians will discuss background information, therapeutic strategies and clinical procedures.

- Aggressive periodontitis - from diagnosis to treatment
- Novelities in antimicrobial therapy
- The rehabilitation of patients with advanced periodontal disease
- Soft and hard tissue management around implants
- Save the tooth or place an implant
- How do we manage implant complications
- Changes in morphology and surfaces: a new generation of implants

Meet the expert

- Two small courses on periodontal surgery
- Two small courses on implant surgery

Abstracts of scientific presentations as well as clinical presentations should be submitted for consideration. Only online abstract submissions before December 15<sup>th</sup> 2008 will be accepted.
